Model VF-WMS

Sizes listed are sizes inside of the vacuum seal on the blanket. The maximum size of your screen should be 6" to 8" less than these dimensions. Custom sizes are quoted upon request.

Shipped blanket wrap F.O.B. our plant in Torrance, California, or crated, add 10% to below prices.

Construction: Blanket is 1/4" thick closed cell foam rubber with nylon face. Blankets wider than 40" have a seam in them.

Glass is 1/4" thick tempered. Includes switch, vacuum gauge and vacuum pump. Smaller frames come with 1/3 h.p. 100-120 volt 50/60 cycle 6.5/5.5 amp motor and larger frames come with 3/4 h.p. 115/230 volt 50/60 cycle 12/6 amp motor. Glass and blanket frames are constructed of 2" square steel tubing. Wall mount frame is 2" square steel tubing verticals with 2" x 2" angle horizontals. Finished in dark blue paint. Custom colors available at additional cost. Weights and sizes are approximate.
